

TYPES OF WEAR

There are several types of wear to create a vintage style for your decoration.

Cracked vintage effect

Sanded vintage effect

Distressed vintage effect

WEAR INTENSITIES

You can choose between 3 wear intensities (light, medium and strong).

The stronger the intensity of the effect, the more the garment will be visible through your logo.

Light

Medium

Strong

The vintage look can erase some letters or elements. Please examine your mock-up closely before approving, to ensure that all elements important to you are readable.

SPECIFICATIONS

- The vintage print is a classic.
- This decoration technique is often used to simplify printing on the seams, pockets and zippers.
- The light ink deposit of the Sanded effect provides a softer feel and is less opaque.
- It is preferable to use one or two colors to remain faithful to the vintage look.

We cannot guarantee an exact PMS.

HERE ARE 12 EXAMPLES OF WEAR EFFECTS AMONG HUNDREDS OF POSSIBILITIES
