4 methods of approval are available to confirm your project:

1-Mock up

- Virtual positioning of your logo on your chosen garment.
- Allows you to see the size and positioning of the logo.
- Recommended for small orders.
- Fast.
- No charge when an order follows.
- Colors may vary from one screen to another. A mock up is stricly a virtual representation of your decorated garment.

2-Blank garment sample

- Recommended for fittings, to feel the fabric, and confirm the color of the garment.
- Fast.
- The cost of the garment and shipping charges apply.

3-Pre-production sample

- Recommended to approve a complex production or a large order.
- Allows you to approve specific PMS colors.
- Production and shipping charges apply.
- Time delay: +/- one week.

4-Picture sample

- Recommended to quickly approve production.
- Production charges apply, no shipping costs.
- The picture does not necessarily show the exact PMS of the logos. Colors may vary from one screen to another and depends on the lighting when the picture is taken. This approval method is not optimal.
